SUMMARY

Full-stack developer and licensed **Doctor** with a passion for creating innovative and user-friendly technology solutions. Proficient in a range of programming languages and technologies, including **JavaScript, React.js, Node.js**, **Nest.js**

TECHNICAL SKILLS

HTML5, CSS3, Javascript (ES6), TypeScript, jQuery, DOM, React.js, Redux, Nest.js, Node.js, Express, TypeORM, Bootstrap, Git and Github, PostgreSQL, JSON Web Token, SQL

TECHNICAL PROJECTS

JS Quiz - Github | Demo
The app presents multiple-choice questions and tracks the user's score and presents the final score at the end of the quiz.
- I constructed a responsive JavaScript quiz using **HTML**, **CSS**, and **JavaScript** to ensure optimal performance on multiple devices.

KitchenTech - Github | Demo (in process)
Online-store with different techniques for kitchen.
- I developed a web-based store using **Node.js** and **React** with a **PostgreSQL** database. The platform includes an admin panel and **JWT**-based authorization for secure user access.

Real World - GitHub | Demo
The app is a fully-functional blog, clone of Medium.com, complete with all of its features and capabilities, including the ability to create and publish articles, follow other users, engage with content through likes and comments, and more.
- I developed a backend API with **Nest.js**, **TypeORM**, **JWT**, **TypeScript** and **PostGreSQL** for a real-world project and integrated it with an **Angular** frontend.
